***Allowable Subject Matter***

1. Claims 1-13 are allowed.

The following is an examiner's statement of reasons for allowance: the closest prior art of Fukuda et al. (US 2002/0131494 A1) in Fig.1, Paragraphs 86-87, provides for "the scene change detector 114 detects a scene change by calculating a variation between the frames of the input video signal Sv. The selector 113 is controlled responsive to the output of the scene change detector 114. And the selector 113 selectively outputs, as the quantization parameter Q, any of the first, second, third quantization parameters Q1, Q2 and Q3, which are the outputs of the memory 112, scene parameter determiner 110 and rate-controlling-parameter determiner 11, respectively". **The prior art of Fukuda failed to teach or suggest "generating for each transform point a double difference coefficient, wherein the double difference coefficient comprises a difference between a raw difference coefficient and a modeled coefficient; and encoding as an adaptive difference coefficient for transform point either the double difference coefficient or the raw difference coefficient, wherein whether the double difference coefficient or the raw difference coefficient is selected to be the adaptive difference coefficient depends on which one provides more efficient coding".**

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

**Examiner's Amendment**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with James K. Okamoto on 11/29/04.

2. Application has been amended as follows: in specification in first paragraph, line 8  
replace "10/\_\_\_,\_\_\_" with "10/032,394".

**Contact Information**

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ali Bayat whose telephone number is 703-306-5915. The examiner can normally be reached on M-Thur 9:00-7:00 PM.
